- ✓ Customizable based on your negotiated forms
- ✓ Easily review and submit final evaluations
- ✓ Reporting identifies individual, school, and district-wide trends

"I have looked at so many Walk Through solutions and none of them can compare to Progress Adviser."

Jessica Miller
Principal, Oasis
Elementary, Morongo USD

Customer Engagement Process

✓ Plan

Initial team interactions to analyze and determine your educational, departmental, and instructional goals for developing strategic walk-thrus.

✓ Build

Assembly and structuring of your organization's information and data entry of all courses, departments, personnel, users, goals and walk-thrus for entire system use.

✓ Launch

Your educational team comes together with ours for training and familiarization in preparation for implementation and execution of your new Progress Adviser system.

✓ Support

Ongoing availability and assistance from our customer support team to ensure your team has a partner in their daily operations that they can rely on.

Team Implementation Process

✓ Train

Work with your team on how best to use Progress Adviser to support teachers & instructional practice.

✓ Survey

Ask your team how it's going. Gain an understanding of what their experience is with Progress Adviser.

✓ Modify

Review, analyze, and plan next steps based on the feedback from your team & observational feedback.

✓ Develop

Reinforce best practices to ensure clear understanding and consistent communication & feedback across your teams in support of your goals.
